

MICHIGAN EVEN START DATA COLLECTION INSTRUMENT

CHILD OUTCOMES

Eighty (80) percent of children age birth to five participating in an Even Start program will score above the cut off for the Ages and Stages Questionnaire in the following domains: communication, cognitive, motor, self-help, and socialization as measured with the Ages and Stages Questionnaire (ASQ) interval (at or above the previous ASQ).

1. How many children age birth to 60 months participated in the Even Start program during the current reporting period?

2. How many children age birth to 60 months were too young to be assessed (under four months) during the reporting period?

3. How many children age birth to 60 months scored above the cut off for Ages and Stages Questionnaire interval in communications, cognitive, motor, self-help, and socialization?

4. For those children who did not score above the cutoff, how many:
(may be represented in more than one category)

Were referred for further assessment?

Were given targeted assistance in the area of concern?

Were reassessed in the next regular assessment and were above the cutoff?

Comments:

Eighty (80) percent of participating Even Start children will demonstrate increased interest in reading within one year as delineated in the “concepts of print,” a sub assessment of the Michigan Literacy Progress Profile (for children whom this measure is appropriate).

1. Of the participating Even Start children, how many showed the appropriate signs of readiness to be assessed using “concepts of print” (a sub assessment of the Michigan Literacy Progress Profile)?
2. How many of the participating Even Start children of an appropriate age who were assessed (#1) demonstrated increased interest in reading within one year as delineated in the “concepts of print”?

Eighty (80) percent of participating Even Start children enrolled in Head Start, Pre-Primary Impaired, Michigan School Readiness Program, or K-2 will exhibit a 90 percent attendance rate in their respective programs for that year.

- ***Excused absences count as attendance. Excused absences include:***
 - ***Doctor’s note***
 - ***Parent call ahead or other notification to report absence***
 - ***Family issues such as death or funeral of a family member***

1. How many participating Even Start children were enrolled in:

- | | | |
|----|-----------------------------------|--|
| a. | Head Start | <input data-bbox="894 1020 993 1073" type="text"/> |
| b. | Pre-Primary Impaired | <input data-bbox="894 1094 993 1146" type="text"/> |
| c. | Michigan School Readiness Program | <input data-bbox="894 1167 993 1220" type="text"/> |
| d. | Title I Preschool | <input data-bbox="894 1241 993 1293" type="text"/> |
| e. | K-2 | <input data-bbox="894 1314 993 1367" type="text"/> |

What is the total number of children participating in these programs?

2. How many Even Start children participating in these programs demonstrated a 90 percent attendance rate in their respective programs during this program year? Include excused absences with attendance days.

- | | | |
|----|-----------------------------------|--|
| a. | Head Start | <input data-bbox="894 1596 993 1648" type="text"/> |
| b. | Pre-Primary Impaired | <input data-bbox="894 1669 993 1722" type="text"/> |
| c. | Michigan School Readiness Program | <input data-bbox="894 1743 993 1795" type="text"/> |
| d. | K-2 | <input data-bbox="894 1816 993 1869" type="text"/> |

What is the total number of children who had 90 percent attendance in any of the programs?

Ninety-five (95) percent of participating Even Start children, who are of school age, will be promoted to the next level within one calendar year (continuous progress levels or grade).

1. During the current school year, how many participating Even Start children were of school age (K-2)?

2. Of those participating children, how many will be promoted to the next grade level?
